

Arctostaphylos uva-ursi

Bearberry, kinnikinnick
Native evergreen bearberry is a shrubby ground cover for cool climates and poor sandy soils. The **6-12"** tall foliage has dark green small rounded leaves and nodding **white** flowers in mid to late spring. Flowers are followed by bright red berries, (loved by bears), that persist into winter. The foliage becomes a reddish-plum color in fall.
Plant 18" apart.

Zones 2 - 6

Berberis thunbergii 'Crimson Pygmy'
Dwarf Japanese Barberry

Reddish-purple foliage on this classic dwarf Barberry with small leaves on arching spiny stems at **2-3'**. Here's a shrub that handles most any kind of soil as long as it's not waterlogged.
Plant 3' apart.

Zones 4 - 8

Berberis thunbergii 'Rose Glow'
Japanese Barberry

This semi-dwarf barberry grows **3-5'** in height, touting an amazing diversity of foliage colors ranging from creamy pink to deep burgundy. The new foliage emerges in the spring as a mottled pattern of creamy white and pastel pink. Later, the leaves deepen to a rose and burgundy. Leaves are brilliant red in fall with best color in full sun.
Plant 3' apart.

Zones 4 - 8

Buddleia Buzz™
Midnight

Dwarf Butterfly Bush
Deep, dark **purple** flowers bloom on compact **2-3'** tall plants from early summer into fall. Small enough for a patio container or small garden space while still providing amazing color and drawing in plenty of airborne visitors with its large fragrant flowers. Performs best in average moisture and well-drained soil. Cut back close to the ground in late winter. PPAF **Plant 24" apart.**

Zones 5 - 9

Buddleia davidii
Adonis Blue™
English Butterfly™ Bush

Arching stems hold deep **violet-blue** 8-10" long tapered flower clusters that are fragrant and loved by hummingbirds and butterflies. At **4-5'**, the bushy foliage is half the height and width of the species making it ideal for smaller spaces.
Plant 36" apart.

Zones 5 - 9

Buddleia davidii
'Black Knight'
Butterfly Bush

An extra heavy producer, this deciduous shrub has silvery foliage and rich deep **purple-black** flowers on dense spikes that bloom from July to fall. 'Black Knight' can be pruned to 6-10" in late winter or early spring before new growth appears. Foliage fills out quickly and grows to **5-6'**.
Plant 26" apart.

Zones 5 - 9

Buddleia Flutterby
Petite™ 'Blue Heaven'
Butterfly Bush

When a butterfly garden becomes a butterfly bush garden its time for Flutterby Petite™! Compact plants, **24-30"** tall, produce less viable seed and will not take over. Butterflies and hummingbirds, however, will still flock to the non-stop fragrant **blue** flowers that bloom from early summer to frost. PP#22069
Plant 30" apart.

Zones 5 - 9

Buddleia Flutterby
Petite™ 'Dark Pink'
Butterfly Bush

Just **24-30"**, this well-behaved butterfly bush can be used in containers, small garden spaces or as a low hedge. Continuous **mauve-pink** blooms dress up the silvery foliage from early summer to frost. Drought tolerant and low maintenance.
Plant 24" apart.

Zones 5 - 9

Buddleia Flutterby Petite™ 'Snow White'

Dwarf Butterfly Bush

Pure **white** flower panicles draw butterflies and hummingbirds from early to late summer. Compact gray-green foliage fits well in containers or can be used as a low growing hedge that sits about **24-30"** tall. **Plant 30"** apart.

Zones 5 - 9

Buddleia Flutterby Petite™ 'Tutti Fruitti'

Butterfly Bush

This compact butterfly bush will attract butterflies and hummingbirds by the dozens. Use 'Tutti Fruitti' for an explosion of color with **fuchsia-pink** flowers all season covering neat and compact **24-30"** tall plants. Neither gardener nor airborne visitor will be disappointed. PP#22108 **Plant 30"** apart.

Zones 5 - 9

Buddleia x 'Miss Ruby'

Butterfly Bush

'Miss Ruby' blooms a vibrant **fuchsia pink** and is well behaved in the sunny border because it does not send out suckers and produces very little seed. Blooms begin in early summer and continue into fall on the **3-5'** tall bushy foliage. Prune in late winter or early **spring**. **Plant 36"** apart.

Zones 5 - 9

Buxus x sempervirens 'Green Velvet'

Boxwood

Compact dense foliage has a broad mounded form with a moderate growth rate to an overall height and spread of **2-4'**. In Zones 5 & 6 plant in a sheltered location to protect from winter winds. **Plant 3'** apart.

Zones 5 - 8

Caryopteris clandonensis 'Dark Knight'

Blue Beard

A low-growing, late-blooming shrub that reaches a height of only **2-3'**, with clusters of deepest dark blue flowers from August through September. The foliage is lance-shaped and silvery-green. Will attract flocks of butterflies!

Plant 24" apart.

Zones 5 - 9

Caryopteris 'First Choice'

Blue Beard

This compact form of Caryopteris has deep inky-blue buds that open to large **cobalt-blue** flowers, which are profuse on erect stems from late August to early October. Best of all, the rounded compact habit means 'First Choice' requires little pruning and won't have the floppy habit some cultivars exhibit. Pest and disease-free, it reaches **36"**. PP#11958 **Plant 24"** apart.

Zones 5 - 9

Caryopteris x clandonensis 'Inoveris' Grand Bleu®

Bluebeard

Blooming in mid to late summer with **deep violet blue** flowers against silvery green foliage, the effect is said to resemble a blue mist. The aromatic leaves add appeal to this compact shrub. Treat as a perennial and cut to just above ground in late winter. Grows **24-30"** in height. PP#17837

Plant 24" apart.

Zones 5 - 9

Chamaecyparis pisifera 'Golden Mop'

Threadleaf False Cypress

This evergreen conifer has golden yellow needles that are 'stringy' and mop-like. Slow growing it will form a **3'** tall and **4'** wide mound in about 10 years but can grow as tall as **5'**. Use as an accent in the rock garden or shrub border. Prefers average to medium moisture. **Plant 3'** apart.

Zones 4 - 8

Gold = Sun, Green = Shade + Level deer resistance (see page 5 for program details)

Flowering Shrubs

Clethra alnifolia
Summer Sweet
Sweet pepperbush

Fragrant **white** bottle-brush-like flowers in July and August are 3-8" long and attract bees and butterflies. Dark brown seed capsules in fall remain ornamental through winter and provide a food source for birds. Grows **5-8'** tall, spreading slowly by rhizomes. Prefers consistent moisture and afternoon shade.
Plant 5' apart.

Zones 3 - 9 **F** **N** Cultivar

Clethra alnifolia
'Hummingbird'
Summersweet

Native summersweet thrives in the partly shady, moist shrub border or woodland's edge, and the very fragrant **white** bottle-brush like flowers in July and August are much valued by birds, butterflies and bees. 'Hummingbird' is a compact variety that grows **3-4'** tall and is slower to spread than the species. Brilliant yellow foliage in fall.
Plant 36" apart.

Zones 3 - 9 **F** **N** Cultivar

Comptonia peregrina
Sweet Fern

A deciduous shrub, 'sweet fern' refers to the sweet odor of the leaves, especially when crushed, and the olive-green fern-like foliage. 2-4' tall foliage grows in dry, sandy sites and is native to eastern North American. Comptonia will tolerate salt spray and is a common companion in pine tree stands, spreading to form colonies.
Plant 48" apart

Zones 2 - 7 **F** **N**

Cornus sericea 'Baileyi'
Red Twig Dogwood

Red twig dogwood is celebrated for its bright red stems in winter that are stunning against a backdrop of white paper birch or a snow covered landscape. **White** flat-topped flower clusters in spring lead to blue-tinged whitish fruits in summer that supply food for birds. This cultivar grows **6-8'** tall with a rounded habit that does not sucker like the straight species. Prefers moist soil and tolerates wet areas. **Plant 8' apart.**

Zones 3 - 9 **N** Cultivar

Deutzia gracilis 'Nikko'
Slender Deutzia

Deutzia offers many seasons of interest from the very floriferous spring blooming season to the attractive dense mounding green foliage in summer that transforms to gorgeous burgundy red in fall. Clusters of small **white** flowers appear on upright panicles in late spring. **1-3'** tall foliage spreads up to 5' wide.
Plant 48" apart.

Zones 5 - 8

Fothergilla major
'Mt. Airy'

Dwarf Fothergilla

Fothergilla is a spring-flowering shrub known for fall color and fragrant flowers. We have chosen to grow 'Mt. Airy' because of its vigorous growth habit (**to 5'**), lovely autumn color, dependable cold hardiness, and the bonus of those white flowers that open as leaves emerge in spring. Fall color is brilliant where this shrub is grown in full sun. Give it the moist, peaty, acid soil it prefers. **Plant 3' apart.**

Zones 5 - 9 **F** **N** Cultivar

Gaultheria procumbens
Wintergreen, Eastern teaberry

Native to eastern North American oak woods and bogs, this evergreen ground-cover produces a wintergreen mint aroma when the leaves are crushed. White nodding bell-shaped flowers along 3-6" tall stems from June to August are followed by bright red berries in fall that persist through winter. Creeping dark green foliage spreads by underground stems and becomes red-flushed in fall. Provide morning sun, light afternoon shade and consistent moisture.
Plant 18" apart.

Zones 3 - 8 **F** **N**

Hydrangea aborescens
'Annabelle'

Smooth Hydrangea

The classic brilliantly **white** "mop-head" blooms of 'Annabelle' are evident from May-July, and can be 12" in diameter. The shrub's shape is a rounded mound, broader than high at maturity. Figure the height at **3-5'**. Try it with Spiraeas for a real summer show. Deciduous 'Annabelle' can be cut to within 6" of the ground in late winter. **Plant 5' apart.**

Zones 3 - 9 **N** Cultivar

Hydrangea macrophylla Cityline®

Mophead Hydrangea

For upscale big city gardens of Europe or those formal and informal here at home, Cityline® hydrangeas offer several color options and compact, disease resistant foliage with very sturdy stems that support the large mop-head flowers. Flower color is affected by the pH in the soil. Adding aluminum sulfate to the soil will promote blue flower color. Blooms on old wood and pruning is seldom required.

Plant 36" apart.

Cityline® Vienna Pink or lavender-blue with white centers. Ages to green. 1-2' tall. PP#10930

Cityline® Paris

Intense reddish-pink or violet-blue flowers age to green. 2-3' tall.

PP#10906

Cityline® Rio

Purple merges with blue and surrounds a green eye to form a gorgeous cluster.

2-3' tall. PPAF

Cityline® Mars Magenta-red or blue with white centers. Agosto soft greens. 2-3' tall. PPAF

Cityline® Venice Hot pink or blue flowers age to green. 2-3' tall. PP#10928

Zones 4 - 9

Hydrangea macrophylla BloomStruck™

Endless Summer® Mophead

Grandmother would have loved to greet visitors at her cottage door with this beautiful re-blooming hydrangea. Mopheads measuring 3.5-5" across bloom **rose-pink** or **violet blue**, depending on pH, atop burgundy stems and handsome 3-4' tall dark green foliage. Blooms appear all summer long on old wood and new growth so harsh winters will not cause a summer without flowers. PPAF

Plant 48" apart.

Zones 4 - 9

Zones 4 - 9

Hydrangea macrophylla 'Endless Summer'

Big Leaf Hydrangea

Mop-head bears 8-10" flower heads of **pink** in neutral to alkaline soil or **blue** in acidic soil. Best is, it blooms on old and new wood and blooms through the summer. Happiest in partial or dappled shade with consistent moisture, growing to a mature height of 5'. PP#15298

Plant 3-4' apart.

Hydrangea macrophylla Twist-n-Shout®

Lacecap Hydrangea

Shake it up baby now...with the first ever reblooming lacecap introduced as part of the Endless Summer® collection. Handsome dark green foliage and sturdy deep red stems support **pink** flowers in alkaline soil or **periwinkle** flowers in acidic soil. First blooms in early summer with the next round in late-summer. Height of 3-5'. PP# 20176

Plant 36" apart.

Zones 4 - 9

Hydrangea paniculata Bobo®

Panicle Hydrangea

Absolutely stunning in summer when the 30-36" tall foliage is smothered with creamy **white** flower panicles. Blooms are held on strong stems and get larger and longer as the season progresses, becoming even more eye-catching in fall when the flowers take on a pinkish hue. Expect a beautiful floral display every summer as it blooms on new wood. PP#21008

Plant 48" apart.

Hydrangea paniculata
'Limelight'

Panicle Hydrangea

6-12" long cone-shaped flower panicles begin creamy **lime-green** and transform to antique **rose-pink**, blooming from mid-summer to fall. 'Limelight' is an upright deciduous shrub at **8-15'** tall, and is very tolerant of wind and severe winters. Blooms are produced on new wood and make excellent cut flowers for fresh or dried arrangements. PP#12874
Plant 5' apart.

Zones 3 - 9

Hydrangea paniculata
'Little Lime'

Panicle Hydrangea

This compact version of 'Limelight' grows to **3-5'** tall with the same mid-summer creamy **lime-green** flowers that turn **rose-pink** in the fall. Excellent wind and cold tolerance and perfect for containers or borders. PPAF
Plant 36" apart

Zones 3 - 9

Hydrangea paniculata
Pinky Winky®

Panicle Hydrangea

All eyes will be on this spectacular Hydrangea in late summer when the large white flower panicles begin to turn pink at the base creating two-toned clusters that are up to 16" long. Use as a specimen in the mixed border where its overall height will be 6-8' and spread 7-9'. Adaptable to many soil types and soil pH does not affect the flower color. Prune in late winter to early spring. PP#16166
Plant 7' apart.

Zones 3 - 9

Hydrangea quercifolia
'Ruby Slippers'

Oakleaf Hydrangea

Gorgeous **rose-pink** inflorescences open white at first but soon turn pale pink and then deep rose-red. 9" long flowers panicles are held above the dark green foliage in summer. This compact hybrid grows to **3.5'** tall and 5' wide. Deeply lobed leaves turn mahogany-red in fall and exfoliating bark provides winter interest. A 2010 U.S. National Arboretum introduction.
Plant 60" apart.

Zones 5 - 9 **Cultivar**

Hydrangea quercifolia
'Snow Queen'

Oakleaf Hydrangea

An improved version of our native Hydrangea with showy conical **white** flowers held on strong stems from late spring through summer. Blooms age to dusty **pink** and the large oak-like leaves turn bronzy-purple in fall. Attractive in the shrub border or as a single specimen. Grows to **4-6'** and spreads up to 6-8'.
Plant 6' apart.

Zones 5 - 9 **Cultivar**

Hydrangea serrata
Tuff Stuff™

Mountain Hydrangea

Flowering on both old and new wood, Tuff Stuff™ will provide many weeks of **reddish-pink** lacecap blooms. Heaviest flowering is in early summer followed by a lighter show through fall. Heart-shaped serrated leaves turn burgundy-bronze in fall. Keep soil moist and provide some afternoon shade. Grows **24-36"** tall. PPAF
Plant 24" apart.

Zones 5 - 9

Ilex verticillata
Winterberry

Deciduous winterberry is a favorite for its bright red berries on bare stems in winter that are used in holiday decorations and for its attractiveness to birds and beneficial insects. Grows in a rounded upright form to **8-10'** tall and wide but can be pruned into a tree-like shape in early spring. Dark glossy green leaves with tiny white flowers appear in late spring. Native to wet woods, swamps & thickets in the eastern U.S. **Plant 8' apart.**

Zones 3 - 9

Itea virginica
'Henry's Garnet'

Virginia Sweetspire

'Henry's Garnet' has fragrant 6" long **white** racemes in June and July in good quantity. The rich green leaves make a nice rounded shape **4-5'** high and 6' wide. Its foliage in the fall is dependably brilliant reddish-purple in color before fulfilling its deciduous life cycle. This shrub is easy to grow handling shade or sun, and wet or dry soils. **Plant 5' apart.**

Zones 5 - 8 **Cultivar**

Flowering Shrubs

Itea virginica 'Little Henry'
Dwarf Virginia Sweetspire

The arching shoots of native 'Little Henry' bear the same fragrant **white** bottlebrush blooms as 'Henry's Garnet', but this handy little deciduous shrub reaches **2 1/2'** tall at best. Tidy in shape, the shiny dark green leaves turn brilliantly red-purple in fall. As a foil for competing perennial colors in the border, for foliage contrast, or massed on its own, 'Little Henry' is an alternative worth considering. PP#10988 **Plant 3' apart.**

Microbiota decussata
Siberian Cypress

This extremely hardy evergreen ground cover has arborvitae-like foliage that forms a spreading mat. Branched layers turn slightly downward and are bright green in summer, turning bronze in fall. Siberian cypress is often used as an alternative to Juniper and as a slope stabilizer. Vigorous **18"** tall foliage can spread up to 12' and tolerates poor, dry soils.

Plant 48" apart.

Zones 5 - 8

Cultivar

Zones 2 - 8

Nandina domestica
Harbor Belle™
Heavenly Bamboo

Nandina provides many seasons of interest as an accent plant or low hedge. New foliage is pinkish in color as it emerges in spring and then turns dark green, finishing out the fall a beautiful deep burgundy-red. Grows in a dense mound to 15-18" tall. Small white star-shaped flowers in late spring are followed by clusters of red berries in fall. Evergreen in warmer climates. PP#14668 **Plant 24" apart.**

Rhus aromatica 'Gro-Low'
Fragrant Sumac

This fragrant woody ground cover grows **12-36"** tall and will spread to 6-8', establishing itself in a variety of soil types. Glossy dark green leaves turn striking shades of orange, red and burgundy in the fall. Clusters of small **yellow** flowers appear in late spring followed by hairy red berries in late summer. Use as a bank stabilizer or as an attractive filler in large areas where it will choke out weeds.

Plant 3 - 5' apart.

Zones 6 - 10

Zones 3-9

Cultivar F

Rubus Raspberry
Shortcake™
BrazelBerries®

No longer does one need to pick raspberries from an out of control jungle of thorns. Raspberry Shortcake™ is so compact at 2-3' and painless, aka thornless, that it can be placed in a patio container or tight garden space near a walkway. Fragrant white blooms are followed by delicious berries in mid-summer on compact plants that do not require staking. Self-pollinating. PP#22141 **Plant 36" apart.**

Sarcococca hookeriana
var. humilis Fragrant
Valley™
Sweet box

Unbelievably sweet fragrance wafts from the almost unnoticed **white** flowers in late winter to early spring. This compact variety is shorter than the species at **18"** tall. Sweetbox is a member of the boxwood family and has similar dense evergreen foliage and glossy green leaves. Great groundcover for moist shade. Prefers organically rich soil. PP#19942 **Plant 24-36" apart.**

F

Edibles

Zones 5 - 8

F

Spiraea japonica
'Anthony Waterer'
Japanese Spirea

Spirea offers a natural look in the shrub border. Flat-topped flower clusters in late spring to mid-summer are dark **pink** and then fade to light pink on the **3-4'** tall foliage. A light trim will remove spent blooms and may encourage a re-bloom. Foliage emerges reddish-purple in spring, changing to green and then red in fall.

Plant 36" apart.

Spiraea japonica
'Gold Mound'
Japanese Spirea

Spring foliage emerges golden yellow and as the summer heats up it becomes chartreuse, complementing the late spring bright **pink** flowers. Deciduous **3'** tall mounding foliage can be used as a low hedge along a walkway or path. Prefers average, well-drained soil but is adaptable to a wide range of soils.

Plant 36" apart.

Flowering Shrubs

Spiraea japonica 'Golden Elf'

Dwarf Bridal Wreath

This very small, low-growing deciduous shrub reaches only 8" in height with a spread of about 24". Tiny golden oval leaves are topped with pink flowers in May last through July. Spiraea looks nice in a rock garden or in the front of a border. Remove spent flowers for new growth. It can be pruned back in late winter.

Plant 2' apart.

Zones 4 - 8

Spiraea japonica 'Little Princess'

Dwarf Bridal Wreath

Many clusters of pale pink, flat-topped flowers are carried above small dark green leaves in June and July, and intermittently into early fall. This handy dwarf deciduous shrub has a compact 2' height that could be the anchor in your small perennial border.

Plant 2' apart.

Zones 4 - 8

Spiraea japonica 'Magic Carpet'

Bridal Wreath

While the 24" height is a plus, the chartreuse to light yellow leaf color of 'Magic Carpet' will add an unusual color accent to the perennial border, or massed on its own. Vivid orange-red new stems with deep rose pink flowers in June-July complete the vibrant combination of colors that will drift through the landscape and combine nicely with a host of perennials. PP#9363

Plant 3' apart.

Zones 4 - 8

Syringa

Bloomerang® Purple

Dwarf Lilac

No one ever gets enough of the sweet fragrance of spring blooming lilac. This exciting re-bloomer gives us the usual round of clustered lavender-purple flowers in spring, takes a break in the heat of summer, and then continues to bloom until frost! Promptly remove spent flowers for a better 2nd performance. A deciduous shrub, it grows 5' tall and wide. PP#20575

Plant 5' apart.

Zones 3 - 7

Syringa pubescence subsp. patula 'Miss Kim'

Korean Lilac

'Miss Kim' not only produces sweetly scented blossoms in spring but also has beautiful purplish-maroon foliage in fall. She is a compact grower at 6-8' with clusters of single lavender-purple flowers in mid to late spring that fade to lavender-pink. Remove spent blooms to improve flowering performance for the following spring.

Plant 6-8' apart.

Zones 3 - 7

Syringa x Tinkerbelle®

Dwarf Lilac

Hummingbirds and butterflies love Tinkerbelle, and is it any wonder? Not because of the flying thing but because of the masses of sweetly fragrant pale pink flower clusters that bloom in mid to late spring. Eye-catching wine-red buds add to the beauty of this compact, rounded 4-6' tall lilac. PP#12294

Plant 4-6' apart.

Zones 3 - 7

Vaccinium angustifolium

Lowbush blueberry

Popular among birds, butterflies, humans and commercial blueberry industry with its mild, sweet fruit, produced in early summer and preceded by small pinkish-white flowers in spring. Native lowbush blueberry is found growing from New England to Illinois. Spreading by runners, the 8"-12" tall stems are 'twiggy' with glossy green leaves in summer and reddish-purple leaves in fall.

Plant 24" apart.

Zones 2 - 5

Vaccinium corymbosum

'Patriot'

Highbush blueberry

Native highbush blueberry offers a little something for everyone. Nutritional blueberries in mid summer are enjoyed by gardeners and birds and mammals alike. 'Patriot' is an upright well-branched variety with blue-grey foliage that turns burgundy-red in fall. It grows 5-8' tall and produces sweet blueberries that ripen in mid-June.

Plant 5' apart.

Zones 2 - 5

Vaccinium x Blueberry Glaze™
BrazelBerries® Blueberry
 Yum Yum Yum! Plant this blueberry in a patio container or place in the shrub border where there is easy access to the delicious wild-flavored blueberries. Whitish to pink flowers in spring precede the mid-summer berries. Dark green glossy foliage grows to 2-3' tall and wide and should be pruned after fruiting is complete. Semi-evergreen and self-pollinating. PPAF **Plant 36" apart.**

Zones 5 - 8 **Edibles**

Vaccinium x Jelly Bean™
BrazelBerries® Blueberry
 Super sweet berries in large numbers are nestled amongst dense foliage in mid-summer and may well spark a dual between Mother Nature's four legged friends and the human harvester. Quite ornamental in a container when the multitudes of blueberries are set against red-streaked dark green leaves. Petite white blooms in spring precede berries. **12-24"** tall. Self-pollinating. PPAF#24662 **Plant 24" apart.**

Zones 5 - 8 **Edibles**

Vaccinium x Peach Sorbet™
BrazelBerries® Blueberry
 Showy foliage in spring combines peach, pink, orange, and green hues together for a beautiful display in the garden or patio container. Small white flowers in spring set the stage for a bountiful crop of juicy blueberries in mid summer. **12-24"** tall foliage becomes purplish-maroon in fall, retaining its leaves through winter in mild climates. Self-pollinating. PPAF#23325 **Plant 24" apart.**

Zones 5 - 8 **Edibles**

Vaccinium x Pink Icing™
BrazelBerries® Blueberry
 Whether you like blueberries or not, use Pink Icing™ as an ornamental for its stunning spring and winter foliage. New growth emerges in pink hues and combines with blue and dark green and in mild climates the winter foliage becomes breath-taking as it turns to turquoise blue. White flowers in spring followed by robust blueberries in mid-summer are an added bonus. **3-4'** tall mounding foliage. Self-pollinating. **Plant 36" apart.**

Zones 5 - 8 **Edibles**

Weigela florida Wine & Roses™
Weigela
 Weigelas are primarily grown for their trumpet-shaped flowers that appear in May and June. 'Wine & Roses' has deep rose-pink 1-2" long funnel flowers. 'Wine & Roses' will work in a mass, or as a spectacular color contrast in the border. PPAF#10772 **Plant 3' apart.**

Zones 4 - 8

Yucca filamentosa Adam's Needle
 As a bold accent in groups or in the border, evergreen Yucca is unsurpassed. The sword-like blue-green leaves of this native, with thin curling threads on the leaf margins, are 3-4' high and are of interest all year long. In July and August, very showy and fragrant, creamy-white, bell-shaped flower spikes rise on stiff stems to 5-6'. Sun and drought-tolerant, its foliage is a great contrast to a host of finer-textured plants. **Plant 2' apart.**

Zones 5 - 9

Yucca filamentosa 'Bright Edge'
Vareigated Adam's Needle
 Thriving in infertile, dry, sandy soil, as well as being reliably hardy, Yuccas continue to gain popularity throughout our area. The sword-like leaves are rich green with a decidedly bright yellow leaf edge. The height is 36" and the same lovely white flower bells rise on strong stalks in July and August. **Plant 2' apart.**

Zones 5 - 9 **Cultivar**

Yucca filamentosa 'Color Guard'
Vareigated Adam's Needle
 'Color Guard' has stiff green sword-like leaves with a wide bright yellow center, and we mean bright! Add a compact and dwarf habit at 2-3', superb drought-tolerance, deer resistance, an evergreen quality, and a preference for plain sandy soil, and 'Color Guard' becomes irresistible. The white flowers in July-August on strong stems are a delightful afterthought. **Plant 2' apart.**

Zones 5 - 9 **Cultivar**
